KURTUS SHERMAN

WEB DEVELOPMENT | RESPONSIVE UI | JAVASCRIPT

Kelowna, BC | 778-363-8347 | kurtussherman@gmail.com | okanaganaisolutions.com

PROFESSIONAL SUMMARY

Client-facing web developer who has delivered five business websites, two custom web applications and AI training through Okanagan AI Solutions. Builds responsive, accessible experiences with HTML, CSS, JavaScript/TypeScript, React, Next.js, Astro and Shopify, translating client needs into tested releases and ongoing support.

CORE SKILLS

Front end: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Astro, Tailwind CSS, Shopify Liquid and Three.js
Quality: responsive design, accessibility, cross-browser/device testing, Playwright, Vitest, Lighthouse, Git and GitHub
Delivery: client discovery, requirements, reusable components, APIs, data integration, debugging, documentation and multi-project ownership

PROFESSIONAL EXPERIENCE

Okanagan AI Solutions | Founder, Web & Application Development

Feb 2026-Present | Kelowna, BC

- Delivered client work covering five business websites and two custom web applications, leading discovery, interface planning, development, testing, deployment planning and support.
- Translate business goals into responsive page structures, reusable components, data models and integrations; use acceptance criteria and iterative browser testing to verify behaviour.
- Build with React/Next.js, Astro, TypeScript, Tailwind, Shopify/Liquid, APIs and workflow automation while managing concurrent client projects and reviews.

TumbleTown | Web, E-commerce & Application Delivery (Client Project)

2026-Present | 3 locations | ~1,000 customers

- Rebuilt a multi-location customer website with responsive program discovery, schedules, contact flows, accessibility improvements and performance-focused delivery.
- Customized a Shopify Dawn storefront using Liquid, HTML, CSS and JavaScript, including reusable merchandising sections and gift-card workflows.
- Built Next.js/React/TypeScript staff and registration applications with mobile-first interfaces, permissions, notifications, data migration planning and browser test coverage.
- Own delivery from stakeholder discovery and existing-system analysis through architecture, implementation, QA, documentation and support.

Multi-Power Products | Laser Operator, Testing & Workflow Improvement

Apr 2026-Present | Kelowna, BC

- Operate and troubleshoot CNC laser equipment while supporting testing, production quality and workflow improvement in a deadline-driven environment.
- Built an interactive web-based 3D laser model to explain equipment capabilities and presented the tool to senior leadership.

OK Roof Revival | Sales Closer, Client Acquisition & Setter Leadership

Mar 2023-Dec 2025 | Kelowna, BC

- Advanced from field installation to appointment setting, setter training and consultative closing; recorded a 47% close rate with approximately CA$2,700 average deal value.
- Managed leads, quotes, notes, photos, payments and follow-up in Jobber CRM using disciplined client communication and issue resolution.
- Balanced customer priorities, field constraints and multiple active opportunities while keeping stakeholders informed.
