FRONT-END DEVELOPER | WEB DEVELOPER | UI/UX DESIGNER

PROFESSIONAL SUMMARY

- Front-end developer and UI/UX designer with a **Bachelor of Engineering in Computer Engineering**, a Canadian **Web Development Certificate**, and experience designing, developing, testing, and deploying responsive web interfaces.
 - Build web applications using **JavaScript, TypeScript, React, Next.js, AngularJS, HTML5, CSS3, Tailwind CSS, Figma, and REST APIs**.
 - Translate business requirements, wireframes, task flows, and interactive prototypes into reusable components, accessible forms, responsive layouts, and data-driven interfaces.
 - Developed and deployed **four live portfolio applications with 30+ responsive screens and interface elements** across digital banking, real estate, personal finance, and healthcare.
-

TECHNICAL SKILLS

- **Front-End Development:** HTML5, CSS3, JavaScript, TypeScript, React, Next.js, AngularJS, Tailwind CSS, Component-Based Development, Responsive Web Design, Mobile-First Development
 - **Web Integration and Data:** REST APIs, JSON, LocalStorage, Client-Side Data Management, Loading States, Empty States, Error States, Form Processing
 - **UI/UX Design:** Figma, Wireframing, User Flows, Task Flows, High-Fidelity Mockups, Interactive Prototypes, Reusable Design Components, Usability Reviews, Design-to-Development Handoff
 - **Accessibility and Testing:** Semantic HTML, Labelled Form Controls, Keyboard Navigation, Visible Focus States, Colour-Contrast Checks, Form Validation, Cross-Browser Testing, Responsive Testing, Functional Testing
 - **Development Tools and Deployment:** Git, GitHub, GitHub Pages, Visual Studio Code, npm, Chrome DevTools, Framer Motion, Debugging, Requirements Analysis
-

PROFESSIONAL EXPERIENCE

Web Developer and UI/UX Designer

TechnoGuide Infosoft Pvt. Ltd., Anand, Gujarat, India | Sep 2022–Jul 2023

- Designed and developed **15+ responsive web pages and interface screens** based on client requirements, wireframes, user flows, and approved design concepts.
- Created **20+ wireframes, mockups, prototype screens, and reusable interface components** in Figma for design reviews and front-end implementation.
- Converted approved UI/UX designs into responsive interfaces using **HTML5, CSS3, JavaScript, semantic markup, form validation, and mobile-first development**.
- Collaborated with design, development, testing, and project teams across **5+ project assignments**, using **Git-based version control** to manage code changes, review interface updates, and coordinate delivery.
- Integrated front-end interfaces with **5+ REST API endpoints** and implemented loading, validation, empty, error, and interaction states.
- Applied labelled controls, keyboard-accessible interactions, visible focus states, colour-contrast checks, and validation messages across **10+ forms and interactive elements**.
- Conducted usability, functional, responsive, accessibility, and cross-browser reviews and resolved **25+ interface defects** before delivery.

UI/UX Design and Front-End Development Intern

Alien Software, Anand, Gujarat, India | Jan 2022–Apr 2022

- Contributed to **3+ web projects** involving interface design, front-end implementation, functional testing, and cross-functional coordination.
- Supported the creation of **10+ wireframes, task-flow screens, responsive designs, prototypes, and reusable design elements** using Figma.
- Translated approved designs into **8+ responsive pages and interface components** using HTML5, CSS3, and JavaScript.

- Reviewed requirements, tested interfaces, documented layout and interaction issues, incorporated feedback, and prepared organized design assets for development teams.

PROJECTS

- Deployed and maintained all four applications through **GitHub and GitHub Pages**, providing live demonstrations for recruiter and employer review.

Project: NorthStar CAD Bank

Canadian Online-Banking Prototype | AngularJS, JavaScript, HTML5, CSS3, LocalStorage

<https://prajit-parmar.github.io/northstar-cad-bank>

- Developed a single-page banking prototype containing **8+ dashboard modules** for account balances, credit products, transaction history, e-transfers, financial offers, profile settings, and support content.
- Implemented reusable interface elements, form validation, LocalStorage persistence, responsive layouts, and simulated transaction states using fictional demonstration data.

Project: Maple Crest Developments

Real-Estate Web Application | Next.js, React, TypeScript, Tailwind CSS, Framer Motion

<https://prajit-parmar.github.io/maple-crest-developments>

- Built a responsive real-estate application with **10+ reusable sections and components** covering communities, property listings, viewing requests, inquiry workflows, navigation, and lead capture.
- Applied **React props, component state, event handling, conditional rendering, structured TypeScript data, and responsive navigation** using Next.js, Tailwind CSS, and Framer Motion.

Project: Personal Finance Tracker

Budgeting Application | HTML5, CSS3, JavaScript, LocalStorage

<https://prajit-parmar.github.io/personal-finance-tracker>

- Developed a budgeting application supporting **5+ transaction and reporting functions**, including income and expense entry, categorization, filtering, calculations, and cash-flow summaries.
- Implemented dynamic interface updates, input validation, financial calculations, error handling, and LocalStorage persistence between browser sessions.

Project: Aurora Health Systems

Healthcare Dashboard Prototype | HTML5, CSS3, JavaScript

<https://prajit-parmar.github.io/aurora-health-systems>

- Developed an educational healthcare dashboard with role-based interfaces for **six simulated user roles**.
- Created **15+ reusable cards, tables, status indicators, navigation elements, and information sections** covering ICU information, scheduling, billing, records, and operational summaries.

ADDITIONAL CANADIAN EXPERIENCE

Shift Manager

Pizza Hut, Brantford, ON | Mar 2024–Present

- Supervise up to **eight employees per shift**, assign responsibilities, coordinate workflows, and resolve operational and customer-service issues.
- Train **25+ employees and delivery drivers** on order accuracy, service standards, payment handling, workplace safety, and operating procedures.
- Coordinate high-volume shift operations and complete payment reconciliation, cash balancing, closing documentation, and customer-escalation resolution.

EDUCATION

Bachelor of Engineering in Computer Engineering

A.D. Patel Institute of Technology, Gujarat, India | May 2018–Jul 2022

Web Development Certificate

Conestoga College, Ontario, Canada | Aug 2023–Dec 2024
