Akashganga Society,

Rahatni, Pune, Maharashtra

PROFILE SUMMARY

- Results-oriented SQL Server Database Administrator with Nearly 4 years of experience managing and optimizing complex database environments across on-premises.
- Strong expertise in Performance Tuning, identifying long-running queries, and resolving blocking and deadlock issues using DMVs and SQL tools.
- Hands-on experience in High Availability and Disaster Recovery solutions including Log Shipping, Replication, Mirroring, Always On.
- Proficient in SQL Server versions 2017,2019 and 2022, including installation, configuration, patching, and troubleshooting.
- Experienced in database design, implementation, backup/recovery, refresh activities, and maintaining data integrity across environments.
- Skilled in monitoring and troubleshooting using tools like Redgate.
- Experience in managing database security (logins, roles, permissions) and maintaining secure access controls.
- Experience in SQL Server Agent job management, maintenance plans, and routine health checks (logs, disk space, connectivity).
- Effective communicator and team player with experience working in cross-functional and stakeholder-driven environments.
- Hands-on experience with ticketing and incident management tools like ServiceNow.

SKILLS

- Databases: Microsoft SQL Server (2017, 2019,2022)
- Cloud Platforms: Microsoft Azure (DP-300)
- Monitoring & Performance Tools: Redgate.
- Query & Analysis Tools: DMVs
- High Availability & DR: Log Shipping, Replication, Mirroring, Always On
- Incident Management: ServiceNow
- Scripting & Programming: T-SQL (Transact-SQL)
- Operating Systems: Windows Server (2008, 2012, 2016)
- Database Operations: Performance Tuning, RCA, Backup & Recovery, Security Management, Database Refresh

---

EXPERIENCE:

Database Administrator **Dec 2022 - Till Date**

RSB Techno Service, Pune

- SQL Server installation, configuration, and patching across versions 2017 to 2019.
- Implemented and supported high availability and disaster recovery (HA/DR) solutions like Log Shipping, Database Mirroring, Replication and Always on Availability Groups.
- Conducted performance tuning using tools such as Activity Monitor, DMVs, resolving bottlenecks related to memory, CPU, and disk I/O.
- Performed database refreshes, backup and recovery operations, and created maintenance plans and monitoring jobs.
- Managed security policies, user access (logins, roles, and permissions), and configured Database Mail.
- Automated regular monitoring tasks, including disk space, CPU utilization, memory usage, and SQL error logs.
- Collaborated with cross-functional teams for database migrations, upgrades, and documentation.
- Worked with ticketing tool ServiceNow for incident and change management.

EDUCATION:

Course	Institute	Year of Passing	Percentage
B Pharm	Shivaji University	2021	78 %

LICENSE AND CERTIFICATIONS:

Certificate	Institute
Python 3. X	Simplilearn
PostgreSQL	LinkedIn Learning
SQL Fundamentals	WsCube Tech
ChatGPT & AI Tools Masterclass	Growthyfai Technologies
Azure Database Administrator Associate (DP-300)	Microsoft
