Professional Profile

Full Stack Web Developer with hands-on experience building, maintaining, and enhancing production websites and web applications for businesses in the UAE and the United States. Proficient in **HTML, CSS, JavaScript, TypeScript, React, Tailwind CSS, Three.js, Python, Django, REST APIs, and SQL**. Experienced in developing responsive user interfaces, interactive web experiences, backend integrations, and payment-enabled web applications.

Demonstrated ability to deliver client projects independently, translate business requirements into functional digital solutions, maintain corporate websites, troubleshoot application issues, and improve usability and performance. Experienced in working across frontend and backend components to deliver reliable, business-focused web solutions.

Core Web Design & Technical Skills

- **HTML5**,**CSS3**, **JavaScript (ES6+)**
- **TypeScript**, **React**, **Tailwind CSS**, **Three.js**
- Responsive Web Design
- Front-End Development
- Web Application Development
- Corporate Website Maintenance
- **Python**, **Django**
- Java
- RESTful API Integration
- JSON / Web Services
- Payment Gateway Integration
- SQL, MySQL, PostgreSQL, Oracle
- Git / GitHub
- Application Debugging
- Performance Optimization
- Microsoft Azure – Basic, **Agentic Workflows**
- Docker – Fundamentals
- CI/CD Concepts

Professional Experience

Crystal Wings, Dubai, United Arab Emirates *Dec 2025 – Present*
Full Stack Web Developer

- Develop and maintain corporate websites, web applications, backend functionality, and digital platforms supporting business operations.
- Maintain the company's main website and associated business websites, implementing content updates, functional improvements, and technical fixes.
- Develop web interfaces using HTML, CSS, and JavaScript, integrating frontend functionality with backend services and application logic.
- Translate business requirements into practical web pages, application features, and technical solutions.
- Develop and integrate APIs using structured data and JSON to connect web interfaces with internal application components and third-party services.
- Work with relational databases and SQL to support application functionality and business requirements.
- Troubleshoot website and application issues, perform debugging and testing, and implement corrective solutions.
- Support performance optimization, website reliability, and deployment-related activities.
- Develop Python-based automation and financial-market applications, including MetaTrader 5 API integration and automated trading logic.

Livewire India, Tirunelveli, Tamil Nadu, India *June 2023 – Aug 2025*
Software Trainer & Web Developer

- Developed web and full-stack applications using HTML, CSS, JavaScript, Java, Python, Django, REST APIs, and SQL.
- Built web application interfaces and connected frontend functionality with backend services and databases.
- Applied object-oriented programming principles and structured development practices to build maintainable applications.
- Developed and integrated RESTful APIs to support communication between web applications and external services.
- Implemented API authentication, data validation, error handling, and application-level business logic.
- Designed database structures and developed SQL queries using MySQL, PostgreSQL, and Oracle environments.
- Debugged application issues and implemented fixes to improve reliability and performance.
- Conducted technical training in web development, JavaScript, Java, Python, databases, APIs, and programming fundamentals.

Selected Web Design & Development Projects

1. Asset Pools LLC – Corporate Website *Dubai, UAE*
Tech: JavaScript, TypeScript, Three.js, Tailwind CSS | assetpoolsdxb.com

- Developed a responsive corporate website for a Dubai-based swimming pool company specializing in construction, renovation, maintenance, and design.
- Built modern user interfaces with JavaScript, TypeScript, and Tailwind CSS, using Three.js for interactive visual experiences and cross-device compatibility.

2. Melbee Beauty – Salon Web Application *Florida, USA*
Tech: React, TypeScript, Tailwind CSS, Payment Gateway Integration | melbee.beauty

- Independently designed and developed the client project from scratch for a Florida-based beauty salon, building a modern, responsive web application using React, TypeScript, and Tailwind CSS.
- Integrated payment gateway functionality and handled interface development, application features, testing, and refinements to deliver a professional online customer experience.

3. Crystal Wings – Corporate Website & Business Platforms
Tech: HTML, CSS, JavaScript, Backend Integration | crystalwingsdxb.com

- Maintain corporate and associated business websites, handling backend support, website updates, troubleshooting, functional enhancements, and performance improvements.

4. Celestia Capital – Corporate Website Management | celestiacapitaldxb.com

- Manage website updates, technical maintenance, and functionality for an investment company covering aviation, real estate, and commodities.

5. Cake Delight UAE – Business Website Maintenance | cakedelightuae.com

- Maintain website content and functionality, implementing technical improvements to support online visibility, customer engagement, and business requirements.

Education

B.Sc. Computer Science *2022 – 2025*
Sadakathullah Appa College, Tirunelveli, Tamil Nadu, India

- Relevant coursework: Programming, Object-Oriented Programming, Database Systems, Data Structures, Computer Networks, and Software Development.

Diploma – Honours in Computer Applications (HDCA) *2022 – 2023*
Computer Software College (CSC), Melapalayam, Tirunelveli, Tamil Nadu, India

Certifications & Workshops

- **Python Full Stack Development** – Livewire India
- **Honours Diploma in Computer Applications (HDCA)**
- **Building of Drones: From Design to Flight** – Aerospace and Aviation Sector Skill Council (AASSC)

Achievements

- Finalist in national hackathons organized by **NASSCOM** and **Skill India** (2023–2024).
- **Guest Speaker:** Delivered a session on **Building a Career in the AI Era** (2025).
- Won prizes in inter-college symposiums for innovative web applications and programming challenges.

Soft Skills

- Creative Problem Solving
- Attention to Detail
- Visual Awareness
- Analytical Thinking
- Communication
- Team Collaboration
- Requirement Analysis
- Time Management
- Adaptability
- Debugging
- Continuous Learning
- Technical Documentation

Languages

- **English** – Professional Working Proficiency (C1)
- **Tamil** – Native Proficiency (C2)
- **Malayalam** – Limited Working Proficiency (B1/B2)
- **German** – Basic Proficiency (A1)
