

## PROFESSIONAL SUMMARY

Frontend Developer with over 4 years of experience specializing in building responsive, high-performance websites and web applications using React, Next.js, Astro, JavaScript, TypeScript, HTML, and CSS. Experienced collaborating directly with clients, designers, and cross-functional teams to deliver accessible, SEO-friendly, and user-focused digital experiences. Strong background in modern frontend development, website performance optimization, reusable component architecture, and translating business requirements into production-ready solutions.

## CORE COMPETENCIES

**Frontend Technologies:** React.js, Next.js (App Router), JavaScript (ES6+), TypeScript, Astro, Zustand, Redux Toolkit, React Router, Tailwind CSS, Shadcn, Bootstrap, AJAX, Strapi, HTML5, CSS3, SASS/SCSS

**Performance & Optimization:** Lazy Loading, Code Splitting, Core Web Vitals, Webpack, Vite

**Architecture & Patterns:** Microfrontends, Web Components, Monorepo (NRWL NX), SOLID, FLUX, SSR, SSG

**Tools:** Git, Jira, Figma, Confluence, Zoho, Notion, Vercel, Swagger, Postman, Storybook

**AI Development Tools:** Claude Code, GitHub Copilot, Codex

**Other:** REST API integration, Responsive Design, UI/UX best practices, Agile/Scrum

## PROFESSIONAL EXPERIENCE

### Frontend Developer

**Vesalius** | Melbourne, Australia (Part-time/Contract) | June 2026 – Present

- Develop modern marketing websites and web applications using Astro, TypeScript, HTML5, CSS3, and JavaScript
- Migrate legacy Squarespace websites to modern Astro-based architectures
- Collaborate directly with clients to gather requirements, recommend technical solutions, and deliver production-ready websites
- Build responsive, accessible, and SEO-optimized user interfaces across desktop and mobile devices
- Improve Core Web Vitals through image optimization, static rendering, code splitting, and performance best practices
- Create reusable UI components to maintain consistent branding across multiple client websites

### Frontend Developer

**e-CENS** | Viernheim, Germany (Full-time/Remote) | January 2025 – June 2026

- Developed a large-scale analytics and management platform for a major German marketing agency
- Set up a client-side application from the ground up using Next.js 14, TypeScript, Zustand, and Shadcn UI
- Engineered complex data-intensive features including dynamic dashboards, UTM/QR flow generators, and real-time previews
- Collaborated closely with backend engineers and integrated RESTful APIs using Swagger
- Worked closely with product teams and designers to transform Figma wireframes into responsive and accessible interfaces
- Implemented advanced table functionality including sorting, filtering, column visibility, pagination, multi-selection, and batch operations
- Led frontend improvements including UX refinements, loading-state strategies, error handling patterns, and complex modal workflows
- Authored and maintained technical documentation for frontend architecture and component usage

### Frontend Developer

**LeadsMarket** | Kyiv, Ukraine (Contractor/Remote) | May 2024 – December 2024

- Supported accelerated product delivery by joining the frontend team during a peak feature-release period, helping meet aggressive deadlines and maintain high quality in a performance-driven marketing platform
- Built responsive, user-centric UI components and dashboards for leads management, real-time campaign insights, and analytics tools used by publishers and advertisers across the network

- Collaborated closely with product managers, backend engineers, and QA to scope, prototype, and ship high-impact features on tight timelines
- Implemented modular, reusable React components and maintained consistent design standards aligned with cross-platform branding and usability goals

### **Frontend Developer**

**JobAutopilot** | Toronto, Ontario (Contract/Remote) | March 2023 – April 2024

- Joined the team during the early stages of MVP for a platform which leveraged AI in recruitment activities. Contributed to the front-end development of the website, user dashboard, and internal CRM system using React.js and TypeScript. Focused on implementing UI components and ensuring a consistent user experience across different sections of the platform
- Improved initial loading performance of the user dashboard by optimizing image sizes, implementing lazy loading, and enhancing rendering efficiency
- Wrote clean, maintainable code and followed best practices for scalable frontend development

### **Frontend Developer**

**Galaxy IT** | Khmelnytskyi, Ukraine (Full-time/Office) | July 2022 – February 2023

- Was part of the frontend team of the full cycle digital agency
- Contributed to the frontend development of web applications (SPA, websites) and multiple landing pages using JavaScript (React.js, Vue.js), HTML5, and CSS3
- Integrated client application with headless CMS (Wordpress, Strapi)
- Delivered seamless user experiences across multiple client projects through attention to detail in frontend implementation

### **Junior Frontend Developer**

**ULTRA IT** | Khmelnytskyi, Ukraine (Full-time/Office) | December 2021 – June 2022

- Built company website and landing pages using JavaScript, HTML5, SCSS
- Applied SEO best practices to optimize content and increase organic traffic for client websites
- Collaborated with designers to deliver pixel-perfect, responsive layouts aligned with brand guidelines

---

## **EDUCATION AND TRAININGS**

### **ReactJS Certificate**

ComIT | Winnipeg, Manitoba | June 2025 - September 2025

### **Front-End Developer Bootcamp**

Beetroot Academy | Stockholm, Sweden | May 2022 - September 2022

### **Master's Degree in Management**

Khmelnytskyi National University, Khmelnytskyi, Ukraine | Graduated: June 2016

---
