GODSTIME EKPENYONG

Web Developer | IT Support | Technical Operations

Phone: +234 906 381 4659 | Email: Godstime1605@gmail.com | GitHub: github.com/Gito1916 | Location: Nigeria

PROFESSIONAL SUMMARY

Web Developer and IT Specialist with hands on experience in computer system repairs and technical support, complemented by practical experience developing responsive web applications and property management software. Proficient in React, TypeScript, JavaScript, Tailwind CSS, Python (FastAPI), and Supabase (PostgreSQL), backed by a degree in Business Management and formal Project Management training. Strong technical background in system diagnostics, API integrations, and database backed application development.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript (ES6+), TypeScript, React 18, Tailwind CSS, Astro
- **Backend & Database:** Python 3, FastAPI, RESTful APIs, Supabase, PostgreSQL, SQLAlchemy, Auth Systems
- **IT Support & Systems:** Computer Hardware Repair, System Diagnostics, OS Installation, Maintenance, Troubleshooting
- **Tools & Methodologies:** Git, GitHub, Vercel, Render, VS Code, Agile Project Management, Rapid Prototyping

FEATURED WEB DEVELOPMENT PROJECTS

Hosila — Property & Hotel Management System *Live: hosila.com | GitHub: github.com/Gito1916/Hosila*

- Architected and built a full stack property management system featuring modular workflows for accommodation bookings, restaurant POS, and financial tracking.
- Engineered a responsive frontend using React 18, TypeScript, and Tailwind CSS, integrated with a FastAPI (Python) backend and Supabase (PostgreSQL 17) database.
- Implemented secure authentication with JWKS verification, custom database migrations, and REST APIs; deployed on Vercel and Render for production.

I Do & Beyond — Interactive Wedding & Event Web App *GitHub: github.com/Gito1916/idub*

- Developed an interactive event web application with dynamic DOM manipulation, custom JavaScript, and responsive CSS.
- Built a media upload gallery feature enabling event attendees to upload photos and share media directly from mobile devices.

Neggus Hotel — Landing Page & Web Portal *GitHub: github.com/Gito1916/Neggushotel*

- Designed and deployed a responsive business website for room displays, amenity listings, and direct contact inquiries.
- Structured clean, mobile first HTML5 and CSS3 code optimized for cross browser compatibility and quick page load times.

TECHNICAL & WORK EXPERIENCE

Computer Systems Specialist & IT Technician | Freelance | 2015 to Present

- Provide technical support, system diagnostics, and hardware repair services for laptops, desktops, and office computer setups.
- Perform operating system installations, network troubleshooting, hardware upgrades, and software optimization for clients.
