Interests

I have a love of sports and a passion for playing football, having played since the age of 5 at both club and district level. I currently play competitive 5-a-side football. I enjoy the demands football places upon my leadership and communication skills and the physical nature of the sport.

With a love of sports comes a love of the Gym. I train regularly which helps me focus my mind whilst developing my fitness. Gym work requires dedication, commitment and hard-work alongside a strong desire to improve, assets that I believe are exceptionally important in all aspects of life and work.
