Frameworks & Libraries: React.js, Bootstrap, Lodash

Tools & Practices: Git/GitHub, REST API Integration, Responsive Design, Agile/Scrum, Testing & Debugging

Cloud: AWS (Certified Cloud Practitioner)

EDUCATION

Master of Business Administration (MBA)

University Canada West

BSc (Hons) Computing [IT]

Coventry University

PROFESSIONAL EXPERIENCE

React Developer — Suga Inc. **Sep 2022 – Apr 2025**

- Built and maintained responsive web applications using React.js, JavaScript, HTML, CSS, and Bootstrap for production use.
- Designed reusable UI components that improved page performance and overall user experience across projects.
- Integrated REST APIs to fetch and display dynamic data, ensuring smooth data flow between front-end and back-end systems.
- Partnered with backend and UI/UX developers in an Agile environment to plan, build, and ship features on schedule.
- Managed version control and team collaboration workflows using GitHub across multiple concurrent projects.
- Supported testing, debugging, and deployment of web applications to ensure reliable, bug-free releases.

Front-End Developer Intern (React.js) — E-Signature Pvt. Ltd. **Mar 2022 – Aug 2022**

- Worked closely with company frontend team to conceive and develop cutting-edge web applications, contributing the enhancement of the overall user experience.
- Worked with APIs to fetch and display real-time data on client-facing pages.
- Assisted in developing client websites using React.js, HTML, CSS, and Bootstrap.

PROJECT

MovieManiac

- Developed a fully responsive React application that fetches and displays popular movies from The Movie Database (TMDB) API.
- Implemented dynamic filtering by user rating and sorting by release date or rating using Lodash.
