EDUCATION

St. Francis Xavier University

Master of Applied Computer Science

Antigonish, NS

Jan 2023 – May 2025

Sathyabama University

Bachelor of Engineering in Computer Science

Chennai, India

Aug 2017 – May 2021

EXPERIENCE

Freelance

Remote

Software Developer

May 2025 – Present

- Designed and developed responsive websites using HTML, CSS, and JavaScript, ensuring seamless functionality across all platforms and devices
- Collaborated with clients to understand their unique needs and preferences, translating their requirements into actionable development plans and delivering high-quality websites that meet their expectations

Siemens Tech. and Services Ltd.

Bengaluru, India

Software Development Engineer

Oct 2021 – Sep 2022

- Engineered **PLC**-based automation for conveyor systems using **C#**, **.NET**, and TIA Portal, increasing throughput and reclaiming 40+ hours/month via workflow automation.
- Spearheaded software feasibility studies and effort estimations, resulting in a **20%** reduction in project delays and a **15%** boost in on-time delivery rates.
- Modularized system architectures within an **Agile/Scrum** environment, reducing debugging time by **25%** and significantly improving production stability.

Solartis LLC

Chennai, India

Associate Software Engineer

Apr 2021 – Oct 2021

- Refactored backend logic and optimized **SQL (MySQL)** queries, cutting load times by **40%** and reducing post-release bug reports by **40%**.
- Architected **Jenkins CI/CD** pipelines, lowering deployment errors by **70%** and reclaiming 15+ hours/week for the core engineering team.
- Orchestrated cross-functional collaboration on a global campaign, increasing customer acquisition by **25%** and contributing **\$1.5M** in revenue impact.

PROJECTS

PORTFOLIO & MORE PROJECTS

GoodWill Enterprises Website | React, Tailwind CSS, Framer Motion, Vercel | [Live Demo](#)

- Collaborated with a client to gather requirements and deliver an interactive React platform, improving page speed by 30% and ensuring accessibility.
- Optimized frontend performance by 30% through code splitting and asset management, while implementing accessible, mobile-first UI components.

Resume Boss | React, Vite, JavaScript, Groq API | [Live Demo](#)

- Engineered a tiered keyword extraction system and ATS scoring engine in JavaScript, achieving score alignment within 15% of industry tools like Jobscan.
- Designed and deployed a production React app on Vercel, implementing Groq API integration, localStorage persistence, and real-time ATS scoring.

TECHNICAL SKILLS

Languages: JavaScript, HTML, CSS, Python, C#, Java, C, C++, SQL, Kotlin

Frontend: React.js, HTML, CSS, Tailwind CSS, Framer Motion, Lottie

Backend: .NET, Django, Flask, REST APIs

Databases: MySQL, SQLite, relational design, query optimization

Cloud: AWS (EC2, S3 – foundational knowledge)

Deployment: Vercel, Netlify, Cloudinary, Vite

Tools: Linux, Git, Visual Studio, Eclipse, Jupyter Notebook

Concepts: Data Structures, OOP, SDLC, API design, Machine Learning, Distributed Systems

Practices: Debugging, performance optimization, Agile/Scrum

CERTIFICATIONS

Accenture Nordics Developer: Accenture, 2021

Technical Support Fundamentals: Google, 2021

AWS APAC Solutions Architecture: Amazon Web Services, 2023

More: [7+ additional certifications on LinkedIn](#)
