PROFESSIONAL SUMMARY

Web Developer with 8+ years of experience in Web Development, designing, developing, and maintaining responsive, User-Friendly Websites and full-stack applications using HTML5, CSS3, JavaScript, React, PHP, Laravel, Node.js, SQL, and MySQL. Proven ability to translate Client Requirements into reliable development solutions, delivering seamless functionality and improving Website Performance while maintaining 99.99% production uptime across client-facing web environments. Strong Problem-Solving expertise with a track record of implementing Innovative Solutions, including CI/CD automation that reduced deployment time by 90% and workflow improvements that increased reporting efficiency by 35%. Experienced in Client Collaboration and cross-functional teamwork with product managers, designers, developers, and QA engineers to deliver high-quality websites aligned with business objectives, branding, and user needs. Detail-oriented developer with strong Communication Skills and hands-on experience across frontend and backend technologies, committed to continuous learning, maintainable code, modern web-development practices, and exceptional digital experiences.

KEY HIGHLIGHTS

- 8+ years of Web Development experience designing and developing websites using HTML5, CSS3, JavaScript, React, PHP, Laravel and Node.js.
- Strong experience translating client requirements into responsive, functional and user-friendly websites aligned with business objectives.
- Proven problem-solving and attention to detail, delivering secure, reliable and high-quality web solutions with 99.99% production uptime.
- Skilled in improving website performance, maintainability and scalability through clean code, database optimization and modern development practices.
- Strong communication and collaboration skills, working effectively with clients, developers, designers, product managers and QA teams.
- Experienced in implementing innovative solutions using modern web technologies, frameworks and tools to improve functionality and user experience.
- Able to work independently and as part of a team in fast-paced environments while managing competing development priorities.

TECHNICAL SKILLS

- Programming Languages (Kotlin, Swift, PHP, Python, Node.js, Express, JavaScript, TypeScript, C#)
- Frontend Development (React, Angular, JavaScript, HTML5, CSS3, Xml, Bootstrap, jQuery, AJAX)
- Backend & API Development (Express.js, RESTful APIs, Laravel, Firebase)
- Mobile & App Development (Kotlin (Android), Swift (iOS), Firebase, Room, Android Studio)
- Database Technologies (SQL, MySQL, MongoDB, Firebase Firestore, MariaDB, Hive)
- Big Data & Analytics (Amazon QuickSight, Power BI, Tableau, Apache Spark, Hadoop, Kafka, Talend)
- DevOps & Cloud (Linux Server Administration, Shell Scripting, Docker, AWS Cloud, Azure, Jenkins, CI/CD, Kubernetes)
- Platforms & Tools (Apache Server, Nginx Server, Git, GitHub, Git Bash, VS Code, Xcode, Slack, Office 365, Magento, WordPress)

EDUCATIONAL QUALIFICATION

Mobile Application Development (PGD) – George Brown College (Toronto, Canada) — Jan 2025 – Sept 2025
Big Data Analytics (PGD) – Georgian College **(**Barrie, Canada) — Jan 2024 – Aug 2024
Physics (Bachelor's Degree) - Obafemi Awolowo University (Osun State, Nigeria) — Sep 2009

PROFESSIONAL EXPERIENCE

Full Stack Developer — **Nov 2025 – Present**
Emipryme Fusion Solutions and Innovations Inc.

- ✓ Design and develop responsive, user-friendly websites using JavaScript, React, HTML5, CSS3, PHP, Laravel, and Node.js.
- ✓ Collaborate with clients and team members to understand requirements and translate business needs into effective web solutions.

- ✓ Build reusable frontend components and RESTful APIs, ensuring seamless functionality across frontend and backend systems.
- ✓ Apply web development best practices to deliver clean, maintainable, secure, and high-quality code.
- ✓ Troubleshoot and optimize website performance, using strong problem-solving and attention to detail to improve user experience.
- ✓ Manage multiple development priorities in a fast-paced environment from implementation through testing and production release.
- ✓ Optimize CI/CD workflows using GitHub, Docker, Linux, Nginx, and AWS, reducing release time by 90%.

Full Stack Web Developer (Remote) **Jan 2018 – Dec 2023**

Laurel Analytiq Ltd, Lagos, Nigeria

- ✓ Design integrated databases for clients using MongoDB, leveraging React architecture to provide on-demand and detailed feedback.
- ✓ Develop user interfaces with modern JavaScript frameworks (React), HTML5, and CSS3 to enhance user satisfaction and engagement.
- ✓ Work across both front-end and back-end components of web applications to ensure seamless end-to-end functionality.
- ✓ Manage front-end architecture and implement PHP code within WooCommerce plugins, improving user experience and driving revenue growth.
- ✓ Collaborate with cross-functional teams including designers, product managers, and QA engineers to deliver fully integrated solutions.
- ✓ Builds and customizes WordPress, WooCommerce, and OpenCart solutions, including plugin/module development and third-party system integrations.
- ✓ Troubleshoot and deploy web applications on Apache web servers, ensuring 99.99% uptime and system reliability.
- ✓ Ensure data consistency across all client databases with zero tolerance for data breaches, maintaining high security and integrity standards.

Data Acquisition Engineer **Sep 2018 – Nov 2023**

Visuna, UK / Expro World Wide, Saudi Arabia (Contract)

- ✓ Built SQL-driven templates and automated data workflows improving data accessibility.
- ✓ Managed AWS-hosted DBMS systems, ensuring high availability and optimized performance.
- ✓ Developed dashboards using Power BI to support engineering and operational decisions.
- ✓ Performed data cleaning, validation, and quality checks to maintain system integrity.
- ✓ Improved reporting efficiency by **35%** through workflow automation.

Front End Engineer / Full Stack PHP Developer **Apr 2013 – Aug 2018**

Vast Integrated Solutions, Port Harcourt

- ✓ Planned website development, converting mockups into usable web presence with HTML, CSS, JavaScript, AJAX and JSON coding.
- ✓ Created a customized email campaign templates that enhanced effective marketing and save company cost of purchasing marketing tools.
- ✓ Wrote clean reusable PHP/MYSQL codes for backend applications, enhancing optimal application deliverability to clients.
- ✓ Trained Junior designers on web development with 98% customer feedback satisfaction.
- ✓ Created an offline web application form for NIMASA, using JQuery/PHP/MySQL that increased the client's efficiency and effective file management.
- ✓ Managed web hosting server ensuring 99.99% uptime while leveraging on crone job technologies.

CERTIFICATIONS

➢ Certificate in Advanced Web Development (Nigeria)	July 2013
➢ Certificate in Data Analytics (Udemy)	March 2023
➢ Certificate in Data Foundation (Google)	April 2023
➢ Certificate in Python for Data Science, AI and Development (IBM)	May 2023
➢ Scrum Fundamental Certified	Oct 2025

VOLUNTEER EXPERIENCE

Web Master – Association of Caribbean Student Union (Georgian College)	Sep 2024 – Present
Vice President - Digital Research Club (BDAT – Georgian College)	Jan 2024 – Aug. 2024
